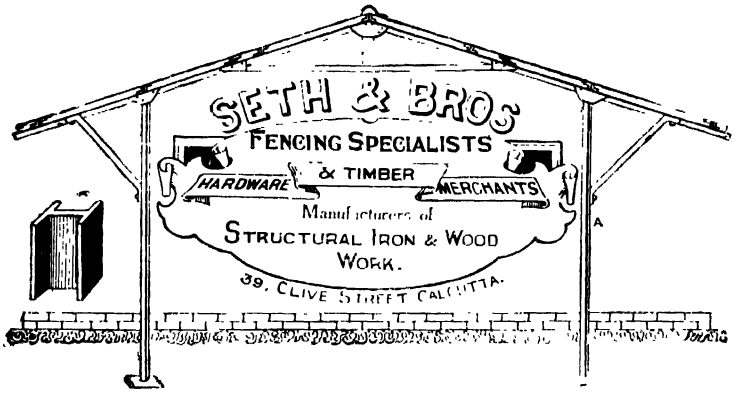
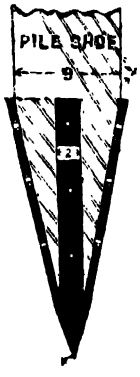
QUALITY *v.* CHEAPNESS!



IF you are buying a horse or a piece of land or a business, which would you consider first –quality or cheapness? Wouldn't you naturally pay as much as you could afford for a good horse, instead of going all over the place looking for a cheap one? The same with land: if you are out buying land you are not looking for the cheapest sites, but those which will raise most produce or which will pay best to build on.

Apply this to your business. If you require catalogues or price lists or office stationery of any kind, you want those which will bring in most results. Cheap printing costs you just as much in time and postage, etc., as good printing. You save a few rupees maybe on the paper and the printing, and your customer remarks the cheap get-up and consigns it to the waste-paper basket. What therefore becomes in that case of your saving on the get-up of your advertisement? You have wasted postage, time, and money for nothing. You have maybe sacrificed to the fetish of cheapness a prospective customer. Why not try quality first, and see if it does not work out cheaper in the end than cheapness?



We make a speciality of quality, and if you want printing of quality we are in the market to help you at the lowest possible prices consistent with good work. We have a large well-equipped printing works and have facilities for executing orders—either large or small—with promptness and despatch. If you would like work of quality at minimum prices, write for particulars.

TYPEWRITER CARBONS.

¶ Caribonum Carbon Paper is made from solid pigment colour, instead of mere aniline dye.

¶ The paper is strong, but very, very thin and plastic. The distinctive process of manufacture binds the coating to the paper in such a way that it wears down evenly—the sharp tap of the type bar does not remove the whole thickness of coating.

¶ If you want to know the difference, take two carbon copies, one made with Caribonum and the other made with ordinary aniline carbon, and put them in the sunlight for a short time. Caribonum Carbon copies will not fade.

¶ Caribonum Carbon Paper contains no grease—that's why it is clean.

¶ Caribonum Carbon Paper will give as many as 150 copies from a single sheet. It works out at 108 copies a penny. Figure out your present carbon paper, and see which is the cheaper.

¶ Caribonum Carbon Paper is entirely free from grease, and no matter how carelessly it is handled it will not soil your hands or your clothes.

¶ Copies made by Caribonum Carbon Paper cannot fade, and they will be as clear 50 years after as on the day they were written.

¶ The beautiful work produced by Caribonum Carbon Paper will inspire your typist with a new zeal in her work.

¶ Caribonum Carbon Paper gives sharp, clear copies, in rich colours. It is almost impossible to see any difference between the carbon copy and the original ribbon impression.

"CARIBONUM":—First Quality.

This is the highest quality of Carbon Paper it is possible to make and it is most economical grade to use for ordinary work. It is made in five colours—black, blue, purple, green and red.

Foolscap Size. Re. 1-4 Per Dozen Sheets. Rs. 9-8 Per Box of 108 Sheets.

"CARIBONUM":—Second Quality.

The coating on this grade is the same as that used on the first quality, but a less expensive tissue is used. Therefore, although it will not wear so long, the quality of the work is the same. It is made in five colours—black, blue, purple, green and red.

Foolscap Size. Re. 1-0 Per Dozen Sheets. Rs. 6-0 Per Box of 108 Sheets.

TYPEWRITER RIBBONS.

The way to avoid continual type cleaning is to use Caribonum Ribbons instead of the ordinary ribbons. The fabric of Caribonum Ribbons is smooth and clean—entirely devoid of fluff. The colour is worked into the heart of the fibre so that the two form practically one body, and wear down together.

A Caribonum Record Ribbon will not clog the type during its entire lifetime—so next time try a Caribonum Ribbon. Caribonum Ribbons are stocked to fit most machines. Rs. 2-4 each.

The Law of Land Acquisition and Compensation in British India:

BEING

The Land Acquisition Act I of 1894, The Land Acquisition (Mines) Act XVIII of 1885, and Cognate Measures, with a Concise Commentary.

BY WALTER RUSSELL DONOGH, M.A.,

Of the Inner Temple, Barrister-at-Law, and an Advocate of the High Court at Calcutta,

Author of "A Manual on the Indian Stamp Law."

"The publication of this volume at the present moment is particularly welcome in view of the Acquisition proceedings occasioned by the Calcutta Improvement Act now pending before the Special Tribunal constituted under the Act. A work which will undoubtedly prove itself to be of immense value not only to the Lawyer, but to all Landholders, particularly Calcutta Householders, and Government Officials throughout India." —*Englishman.*

"Mr. Donogh's name on a land-book is a guarantee of style, accuracy and research; so it may be taken for granted that the qualities which have made his treatise upon the Stamp Law of India the standard work re-appear in his latest offering to his profession. The historical introduction is full and clear, the commentary concise though exhaustive, while the selections made from the myriad precedents of the English Law which deals with compensation for compulsory expropriation from lands have been made with care and judgment."—*Statesman.*

"Mr. Donogh's book deals with every form of compulsory acquisition of land by the State; though the main topic is the Act. The book is very fully complete, the notes accurate, and all relevant English and Indian decisions have been laid under contribution for the purpose of elucidating the sections."—*Allahabad Law Journal.*

"The present edition contains an admirable commentary on the Land Acquisition Act. It is prepared mostly from a careful selection of extracts from judgments pronounced by Indian High Courts."—*Bombay Law Reporter.*

"The notes are full and clear without being verbose. The book is in every way worthy of the reputation of the author, which deservedly stands high with the profession."—*Madras Law Journal.*

"A book which should be in the hands of every Railway Company and Colliery Company, and every person who has to deal with land. Altogether, it is a practical working book, and one which all Lawyers will have to buy sooner or later, scrapping the others."—*Indian Daily News.*

INDIAN SPORTING BIRDS.

BY

FRANK FINN, B.A., F.Z.S.,

Late Deputy Superintendent, Indian Museum, Calcutta.
Author of "The Waterfowl of India and Asia," "The Game Birds of India and Asia," "How to know the Indian Waders," etc., etc.

With over 100 Coloured Plates of Birds from HUME and MARSHALL'S Game Birds of India, Burma and Ceylon, including 4 Plates of their Eggs.

The book includes **Ducks, Geese, Snipe, Rails, Bustards, Cranes, Pheasants, Partridges, Quail,** and their respective Allies.

Hume and Marshall's well known work on the "Game Birds of India" has been out of print for many years, and is only to be obtained at a very high price.

This re-issue of a large proportion of the plates, accompanied by letterpress written by that well known observer, MR. FRANK FINN (late of the Indian Museum, Calcutta), should meet with a welcome from all Indian Sportsmen.

It is thoroughly up to date, as it embodies not only the information available in the time of Hume and Marshall (in the seventies) but what has been added since by the excellent observers who have studied Indian Birds during the last forty years. This involves **the addition of several species of the occurrence of which Hume and Marshall had no idea.**

BY

CECIL WEATHERLY, B.A.,

Late of the Editorial Staff of the Encyclopædia Britannica, 11th Edition.

Bound in handsome Cloth Binding of strong and durable quality with Lettering and Design in Black and Gold on Red, printed in good clear distinguished Type on excellent pure White Paper. A Triumph in Book Production.

Rs. 2-4.

"So far as we have tested it, this seems to be one of the best concise dictionaries in existence. . . The pronunciation is clearly marked, and the definitions are concise but adequate. Mr. Weatherly deserves much credit for the execution, at once scholarly and popular, of a very laborious task"—*The Spectator.*

"What is claimed with some show of reason to be 'the latest and best' work of its kind is Thacker's New English Dictionary. . . . A casual glance through the pages shows how carefully the editing has been done, and the volume contains as much information as many dictionaries several times its size. The type is very clear, and the work altogether is one that can be commended."—*Westminster Gazette.*

"A fine example of scholarship and business enterprise. . . . It embodies on a very generous scale the latest research in dictionary-making in England and America, and it would be difficult to find a more comprehensive dictionary at the price."—*The Yorkshire Post.*

"The whole work evidences care and thoroughness, and considerable ingenuity has been shown in saving space without any sacrifice of utility or ease of reference. . . . . It can be read with comfort."—*The Scotsman.*

"Prolonged use alone enable one to pronounce judgment on a dictionary; but it may be said that this has answered successfully numerous test-appeals made to it."—*Nature.*

"Absolutely up-to-date. Should prove most useful for general reference."—*Belfast News-Letter.*

"A triumph of clear printing."—*Evening Standard.*

"A book of much utility and attractiveness at an inexpensive price, and in a most handy form."—*Pall Mall Gazette.*

Chief Features. Scholarship up-to-date and unrivalled. An abundance of new words and Scientific Phrases. Eminently readable. A handsome Book, and a handy one.
